

Azores

Goals, Challenges and Needs for Energy

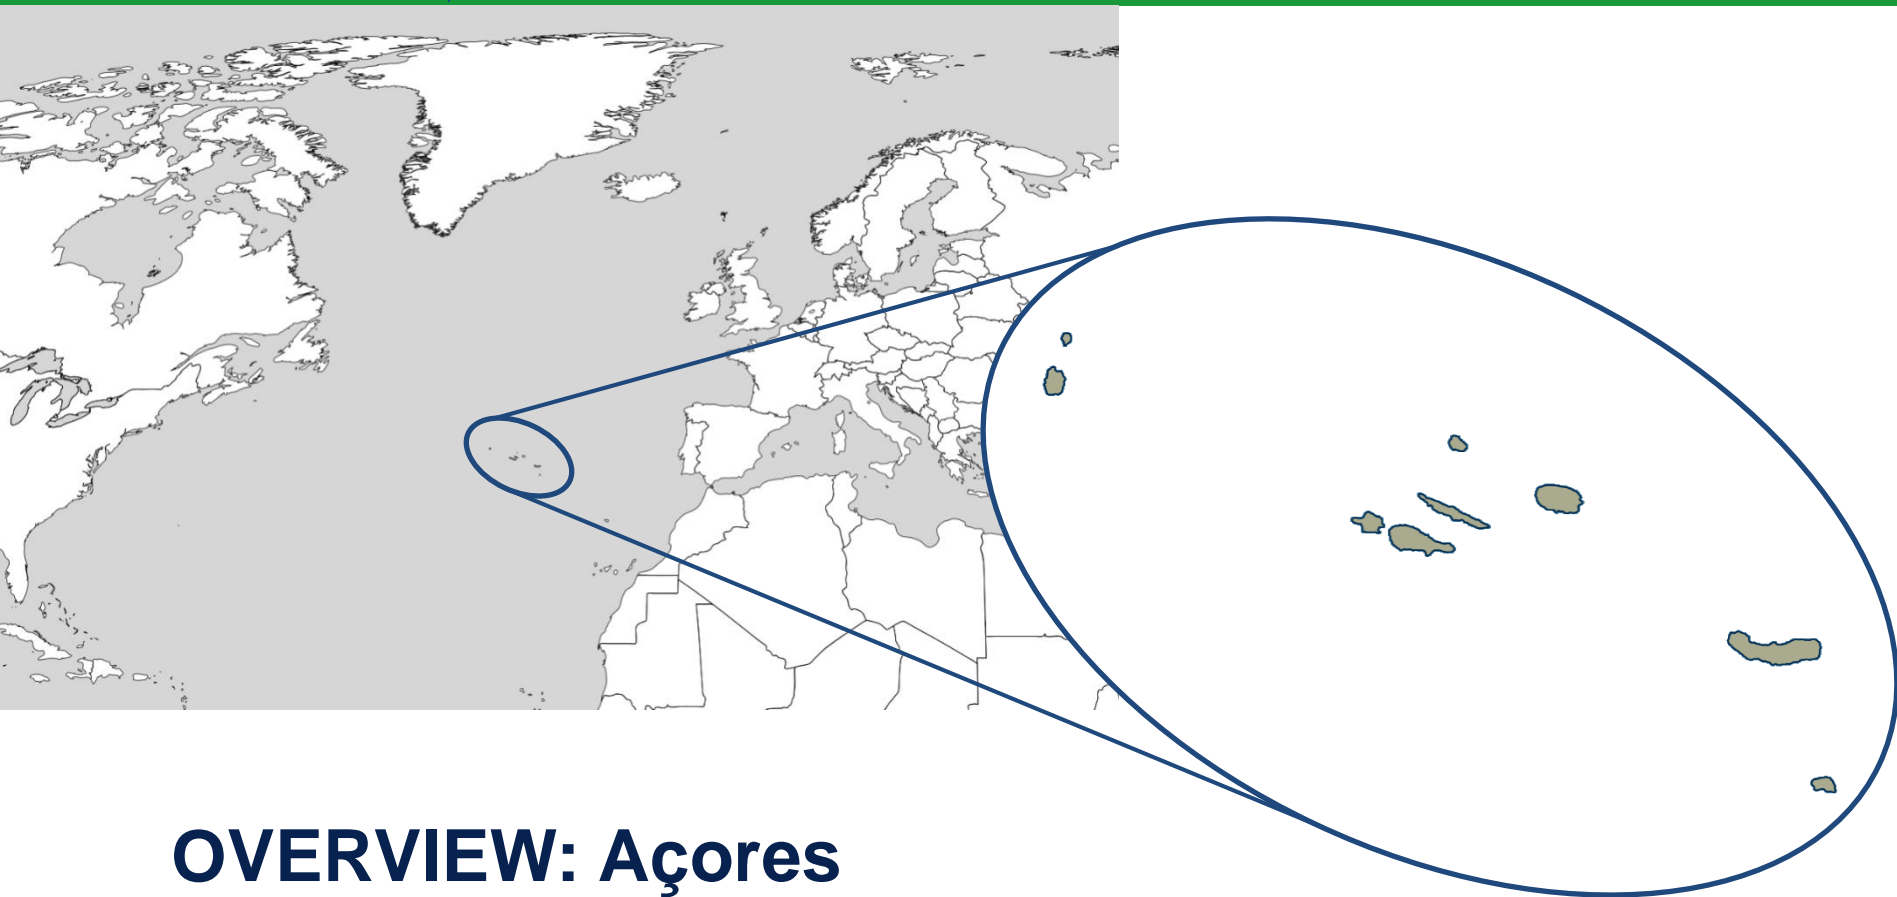

Guilherme Silva, Azorean Directorate for Energy

7th MEDENER International Conference on Energy Transition

26 September 2019 – Greece

Funded by the
European Union

OVERVIEW: Açores

Population ~250k people

9 inhabited islands

Economic focus: dairy industry and tourism

Clean and sustainable energy system, that respects the planet and its ecosystems.

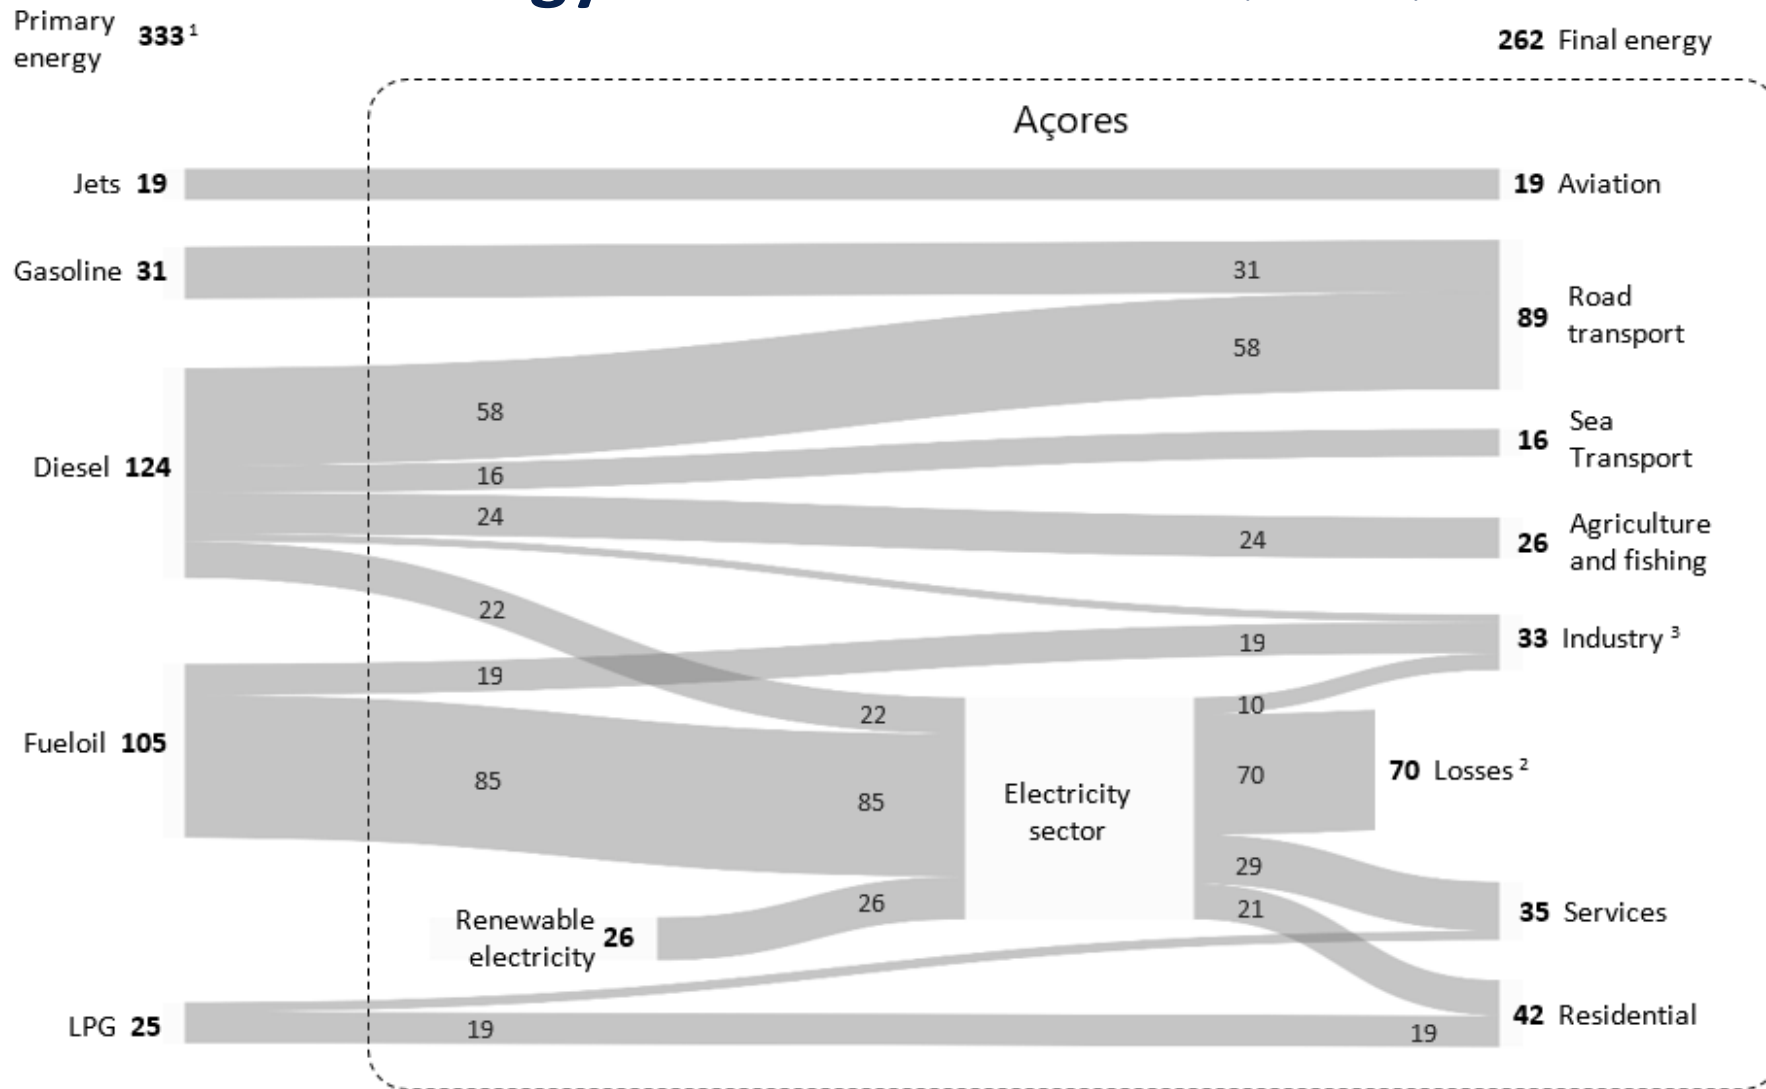

Affordable and leveraging competitiveness.

Clean, secure and competitive energy for all

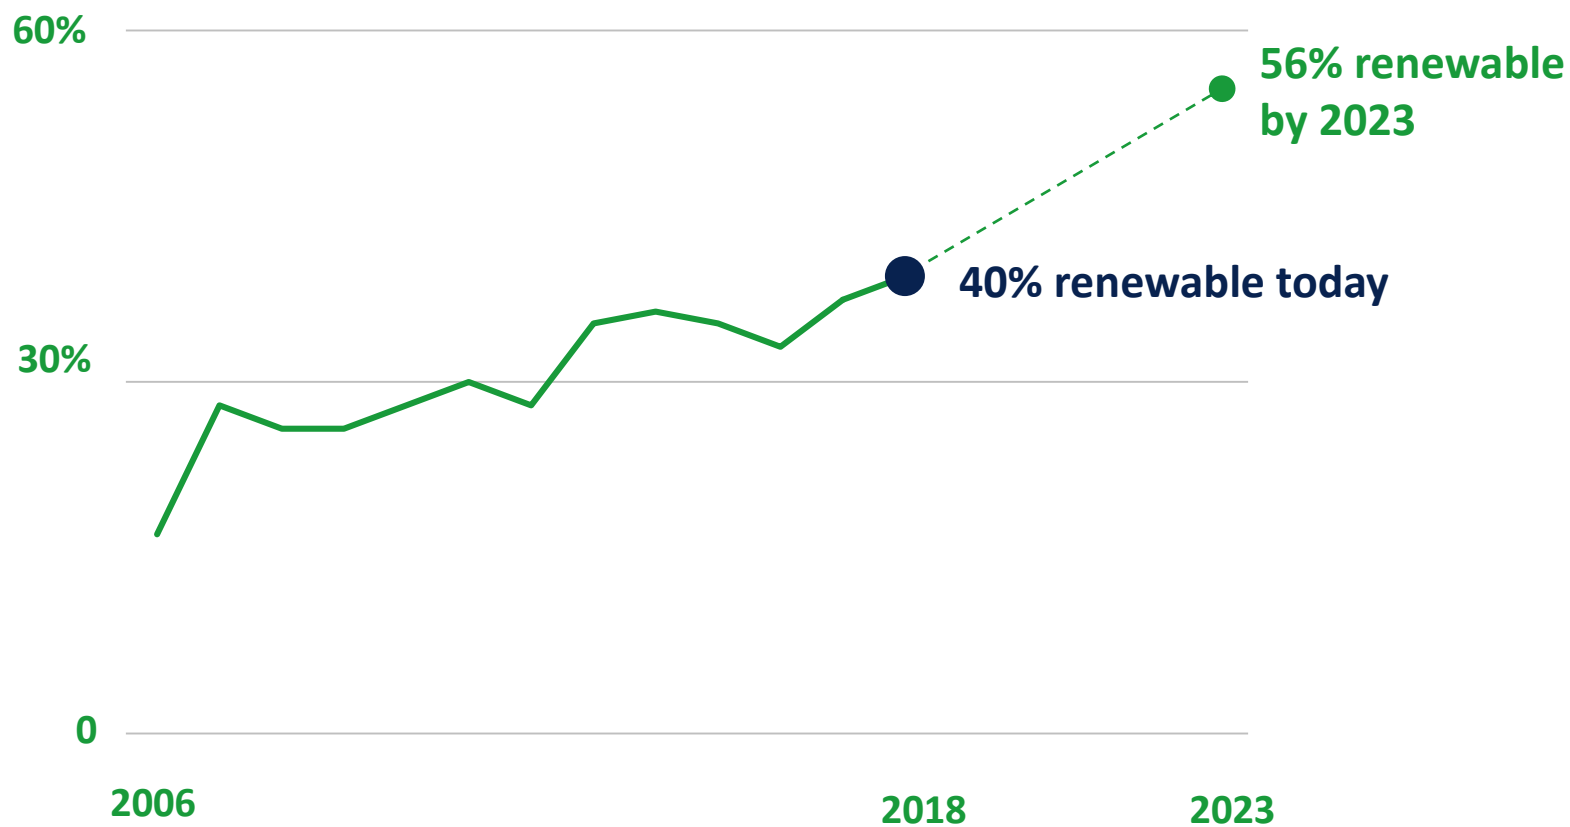

Secure and reliable energy, that is available when needed and in appropriate form and quality.

Widespread accessibility by all, especially by those in greater difficulty.

Energy Flow in the Azores (ktoe, 2015)

Share of renewable electricity
