

Together we switch to clean energy

Matteo Barra, meetMED Project Manager

meetMED Workshop on

Energy Efficiency for Appliances

in the frame of the UfM WG on EE for Appliances

4-5 December 2019 – Barcelona, Spain

Funded by the
European Union

Partnership and target countries

The project **Mitigation Enabling Energy Transition in the Mediterranean Region (meetMED)** is funded by the EU (2018-2020) and jointly developed by the Mediterranean Association of National Agencies for Energy Management (MEDENER) and by the Regional Centre for Renewable Energy and Energy Efficiency (RCREEE).

MEDENER is an international no-profit organization gathering agencies from North and South of the Mediterranean region in charge of implementing public policies on energy efficiency and promotion of renewable energy sources.

The meetMED Project is funded by the **European Union**.

RCREEE is an intergovernmental organization aiming to enable and increase the adoption of renewable energy and energy efficiency practices in the Arab region. RCREEE teams with regional governments and global organizations.

meetMED objectives and work areas

Enabling the Energy Transition in the Mediterranean region: increasing security of energy supply along with climate mitigation in the region, thereby contributing to the development objectives of poverty reduction, economic growth and job creation.

meetMED activities

- Building the essential **technical capacity** to facilitate the **implementation** of RE and EE policies in the target countries.
- **Publications and events** provide the background and recommendations to guide **policy-making** to raise **public awareness**
- **Regional network of national experts** disseminating **good practices**, **case studies** and **practical tools** to implement clean energy solutions.
- **Creating links with existing instruments** of international and regional cooperation such as ClimaMed, SwitchMed, MedStat and EuroMed Cities.

meetMED Regional Expert Network (REN)

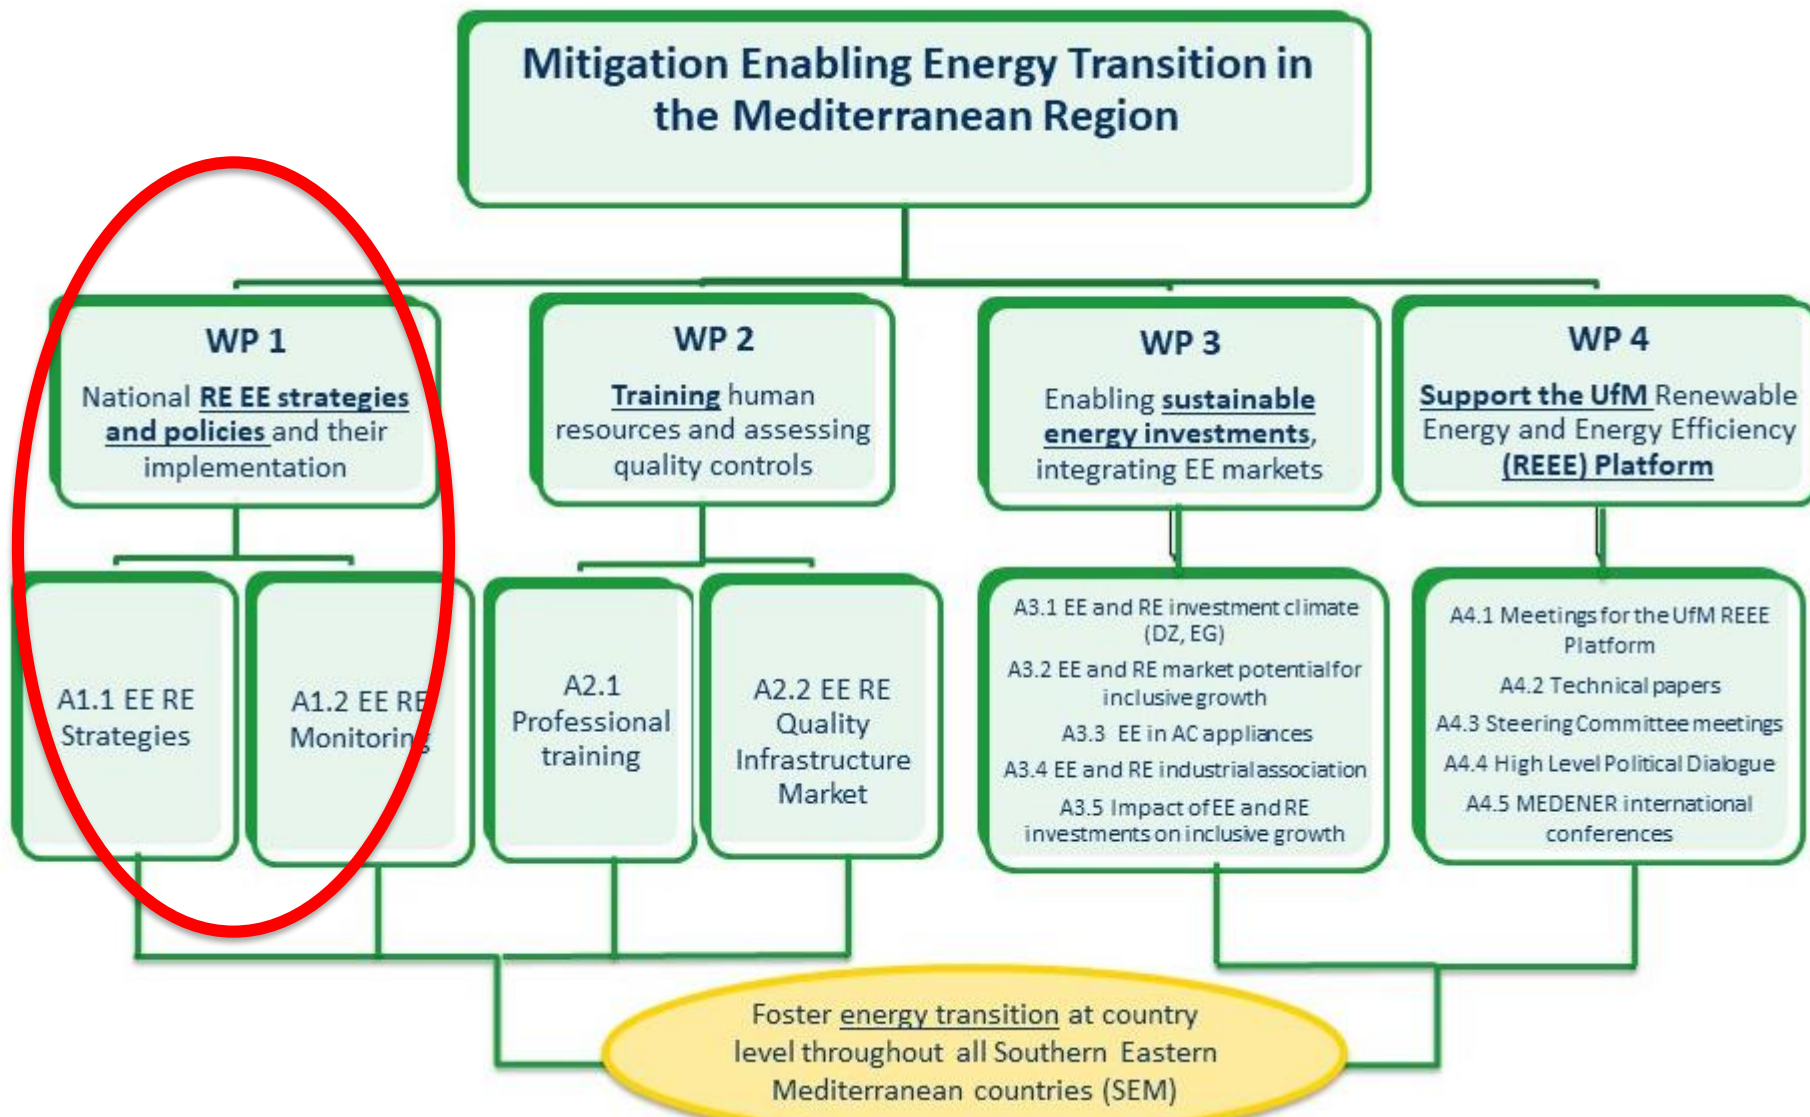

More than 60 energy experts

From 13 Mediterranean countries

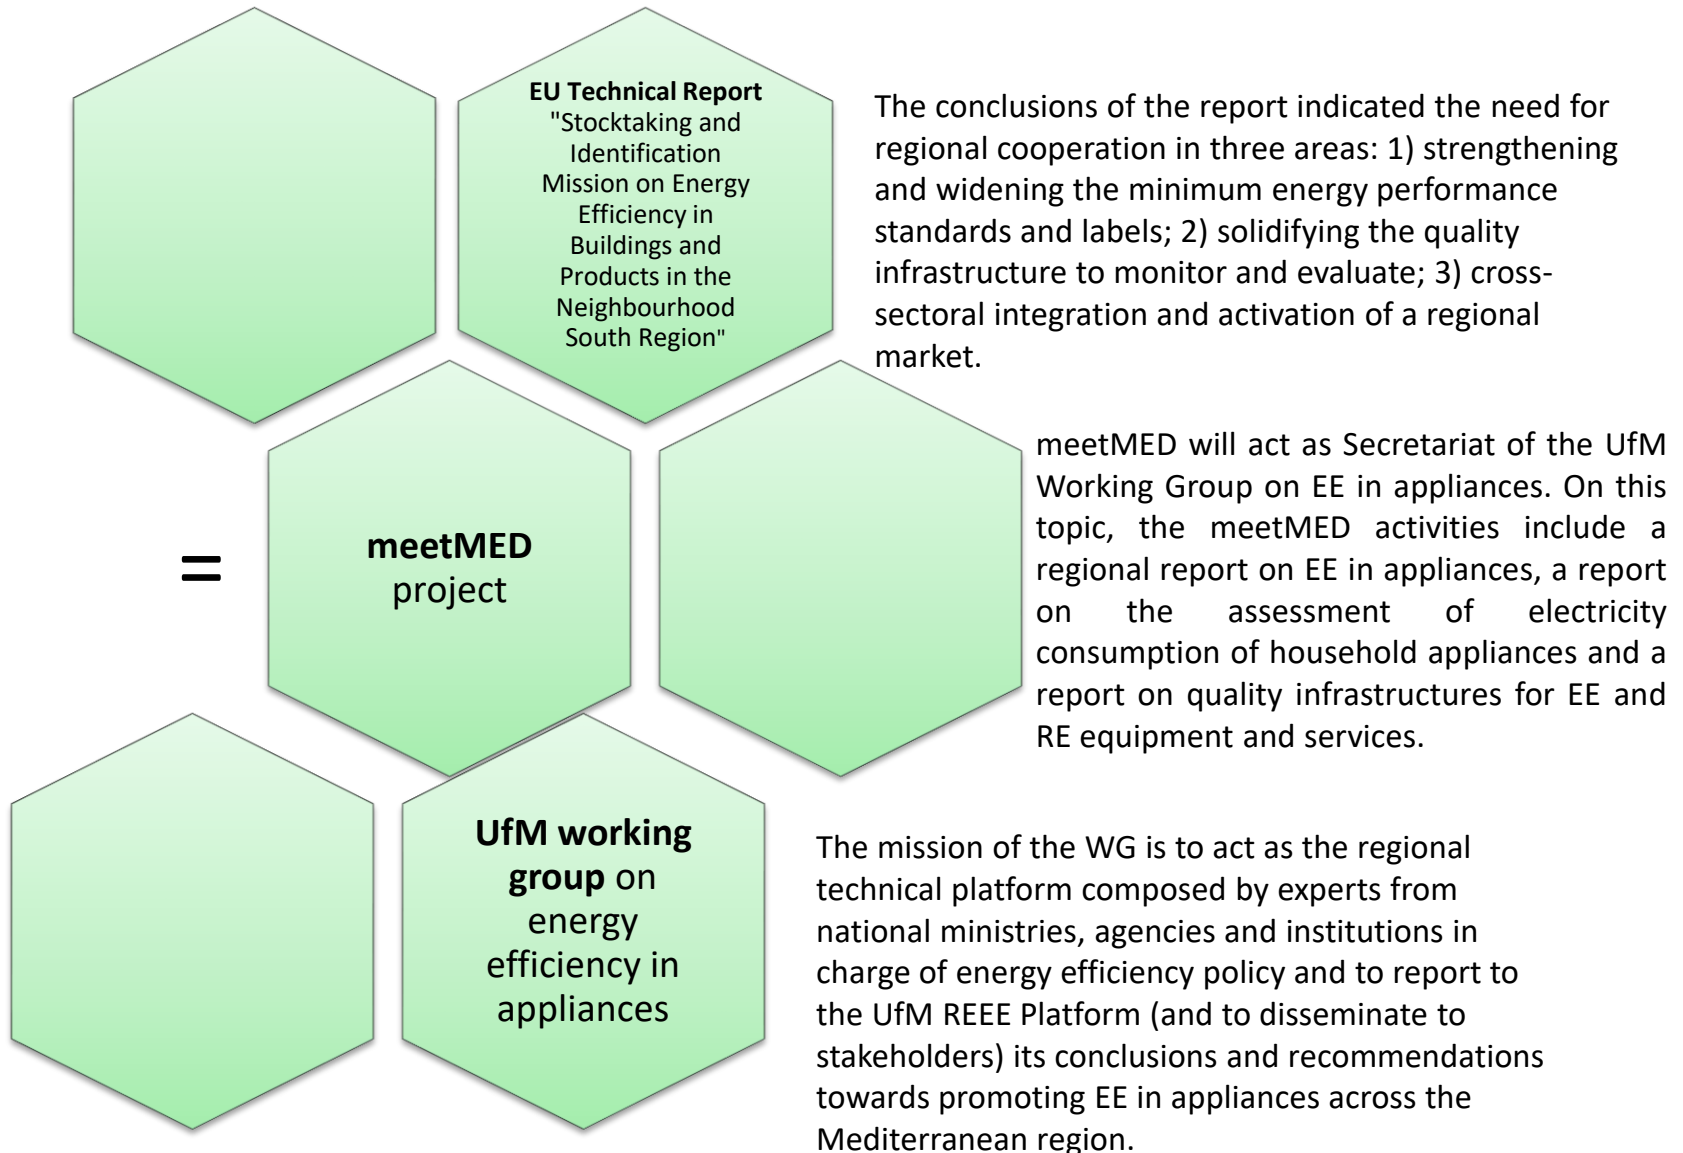

- Provide policy advice
- Exchange best practices
- Train professionals
- Raise public awareness on sustainable energy choices
