

Virtual Meeting

Launching meetMED II - Regional Cooperation for an Energy Efficient Future

April 7, 2021 / 7 avril 2021 / التاريخ: 7 أبريل 2021

9:30am - 12:15pm

Overview of meetMED II

Alicia Tsitsikalis – Project manager ADEME / MEDENER

Funded by the
European Union

General overview

- Mitigation Enabling Energy Transition in the Mediterranean Region – phase II (MEETMED II Project)
- Date : 01/01/2021 – 30/06/2024
- Duration : 42 months

MEDENER is an international no-profit organization gathering agencies from North and South of the Mediterranean region in charge of implementing public policies on energy efficiency and promotion of renewable energy sources.

RCREEE is an intergovernmental organization aiming to enable and increase the adoption of renewable energy and energy efficiency practices in the Arab region.

The meetMED II Project is funded by the European Union.

Goals

- Contribute to **enhancing energy security** of beneficiary countries while fostering their **transition to low carbon economy**, thereby contributing to more stable, **efficient, competitive and climate-resilient** socioeconomic contexts.

- The massive deployment of renewable energy and energy efficiency measures in building and appliances' sectors in the Southern Neighbourhood region accelerates the clean energy transition.

- Public awareness on energy's major stakes and challenges increases, thereby fostering public and private sectors' involvement towards more energy efficient buildings and appliances sectors

The Mitigation Enabling Energy Transition in the Mediterranean region (meetMED) project is an EU-funded project, developed by the Mediterranean Association of the National Agencies for Energy Management (MEDENER) and the Regional Centre for Renewable Energy and Energy Efficiency (RCREEE).

Following the success of its first phase (MEETMED I, from 2018-2020), meetMED project commences its second phase aiming to enhance the energy security of beneficiary countries (namely Algeria, Egypt, Jordan, Lebanon, Libya, Morocco, Palestine and Tunisia) while fostering their transition to low carbon economy. Accordingly, meetMED II will be contributing to the creation of more stable, efficient, competitive and climate-resilient socioeconomic contexts in the targeted countries.

MeetMED II activities aim at strengthening the implementation of EE measures and improving countries' energy mix focusing on building and appliances' sectors through a multiscale, multi-partner and inclusive approach at local and regional levels, thereby fostering regional cooperation.
