

Virtual Meeting

Launching meetMED II - Regional Cooperation for an Energy Efficient Future April 7, 2021 / 7 avril 2021 / 2021 التاريخ: 7 أبريل 9:30am - 12:15pm

Overview of meetMED II

Alicia Tsitsikalis – Project manager ADEME / MEDENER <u>alicia.tsitsikalis@ademe.fr</u>

General overview

• Mitigation Enabling Energy Transition in the Mediterranean Region – phase II (MEETMED II Project)

Date: 01/01/2021 – 30/06/2024

Duration: 42 months

MEDENER is an international no-profit organization gathering agencies from North and South of the Mediterranean region in charge of implementing public policies on energy efficiency and promotion of renewable energy sources.

RCREEE is an intergovernmental organization aiming to enable and increase the adoption of renewable energy and energy efficiency practices in the Arab region.

The meetMED II Project is funded by the European Union.

Affiliated Entities

Building on previous outputs...

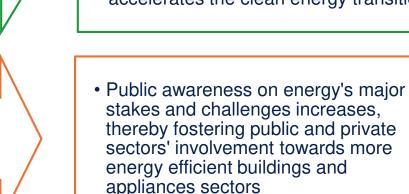

Goals

 Contribute to enhancing energy security of beneficiary countries while fostering their transition to low carbon economy, thereby contributing to more stable, efficient, competitive and climate-resilient socioeconomic contexts.

 The massive deployment of renewable energy and energy efficiency measures in building and appliances' sectors in the Southern Neighbourhood region accelerates the clean energy transition.

Algeria

Libya

Egypt

Morocco

Jordan

Palestine

Lebanon

Tunisia

Rationale

Energy transition in MED Efficient and performant Energy efficient and resilient **Appliances** buildings Identify and remove the bottlenecks **Regional level** 1 **National level** Regulation / norms / Technical tools & Market structuration Access to finance **Awareness** standards training Expertise City & local level Intensify EE measures & increase investment in EE and RES I.O4.2. More than 100 000 people Output 1 – Enforcement & Output 2 - Market Output 3 - Financing Output 4 - Mobilization and reached through increase of investments structured & tools available instruments available public harmonization communication / **WP3 & 4** social media, etc. WP2 WP5 WP6 I.O2.3. 10 tools. I.O1.1. At least 10 0.01.2.70% 1.02.2. 10000 **Impact indicators** 1.02.1. **2000** guidelines and policies proposed users (to be participation; 80% I.OO1. Share of RE in the Energy mix brochures people trained Implementation in satisfaction to the detailed) in the beneficiary countries produced and directly LSO2. 40 8 countries events and I.OO2. C02 reduction at the national projects identified disseminated meetings level in the beneficiary countries through demo i.SO1.Expected I.O4.1. At least 5 actions and up to

labels/MEPS

enforced

10 bankable

business models

energy savings in

buildings (TWh)

Overview of Work Packages

Output 1 - Enforcement & harmonization

WP2 – Concertation on strategies and policies

meetMED weeks and regional dialog

Task force on buildings

Task force on appliances

Regional EE Observatory

Output 2 – Market structured & tools available

WP3 - Promote efficient buildings

Demo actions:

- Water Energy nexus promotion
- · Standardized EPS contract
- Tools for Schools and public buildings renovation
- Promote green building labelling

Output 3 – Financing instruments available

WP4 – Promote efficient appliances

Demo actions:

- Scrapping campaign for AC / Energy consuming appliances
- · Regional testing lab FS
- Promotion of MEPS and implementation in 2 countries

Output 4 – Mobilization and increase of investments

WP5 - Access to finance

Information and promotion of existing funding mechanisms

Design of bankable projects

Networking and dialog at national level

Professional training: MOOC and webinars, guidance, study tours, training in presential, etc.

WP6 - Communication and dissemination

Policy briefs, guidance for decision makers

Profesionnals, Market, Banks, etc. Guidance, tools, trainings, platform Grand public, pupils

Website, social media, conference, specific material

Organizational structure

Steering committee

Project Management Team

Advisory Board

Meeting each year

Meeting each 3-6 months

WP2 – Strategies and policies
WP leader : ENEA

- 1. Engagement & events (ENEA)
- 2. CA Buildings (ADENE)
- 3. CA Appliances (RCREEE)
- 4. CA Monitoring (ADEME)

WP3 – Energy efficiency in buildings

WP leader: ADEME

- 1. Promotion of efficient buildings
- 2. Professional Training

WP4 - Appliances
WP leaders : RCREEE

- Promoting the use of efficient and performant appliances
- 2. Professional training

WP5 – Market development / Access to finance

WP leader: RCREEE

- Facilitating access to finance for EE in buildings and appliances
- 2. Professional training

Cross cuting: synergy with EU and national projects/programs and NREEAPs / NEEAPs or national EE &RE strategy

WP 6: Communication& Dissemination - WP leader: RCREEE

About the meetMED project

The Mitigation Enabling Energy Transition in the Mediterranean region (meetMED) project is an EU-funded project, developed by the Mediterranean Association of the National Agencies for Energy Management (MEDENER) and the Regional Centre for Renewable Energy and Energy Efficiency (RCREEE).

Following the success of its first phase (MEETMED I, from 2018-2020), meetMED project commences its second phase aiming to enhance the energy security of beneficiary countries (namely Algeria, Egypt, Jordan, Lebanon, Libya, Morocco, Palestine and Tunisia) while fostering their transition to low carbon economy. Accordingly, meetMED II will be contributing to the creation of more stable, efficient, competitive and climate-resilient socioeconomic contexts in the targeted countries.

MeetMED II activities aim at strengthening the implementation of EE measures and improving countries' energy mix focusing on building and appliances' sectors through a multiscale, multi-partner and inclusive approach at local and regional levels, thereby fostering regional cooperation.
