MED SEI Forums

Using the successful **experience** of SEI Forums in **Europe** as reference, **meetMED** is establishing a **series of national roundtables** bringing together banks, financial partners, public authorities and all stakeholders involved in delivering investments in sustainable energy.

- ✓ The roundtables aim at **facilitating and enhancing** the **dialogue** among the different participants to promote the identification of **solutions** and replication of best practices.
- ✓ The **topics** to be discussed are decided **based on the national stakeholders needs/requests**.

NATIONAL ROUNDTABLES ARE:

- Focused on dialogue and solutions

BASED ON PEOPLE

- Identification and engagement of relevant stakeholders in the country (investment banks, international financial institutions, relevant ministries, energy agencies, utilities, ESCOs, construction sector, industry federations, consumers organizations)
- Participative approach
- It takes time to build momentum (usually 2-3 roundtables) – Recurrent events

NATIONAL ROUNDTABLE OBJECTIVES

- Map and engage **all relevant public and private stakeholders** in the country
- Map most relevant **financial tools, measures, initiatives** to push the energy transition in their country
- Improve the **visibility of existing public funds**
- Discuss how to **enhance the access to finance for energy efficiency projects and overcome current barriers**
- Present **good practices and innovative funding mechanisms** addressed to both buildings and appliances → Discuss ways to **replicate and scale up** them
