Mitigation Enabling Energy Transition in the MEDiterranean region  
Together We Switch to Clean Energy

## **Background and Mission overview**

Within the framework of meetMED II “Mitigation enabling energy transition in the Mediterranean region: Focus on Energy Efficient Buildings and Appliances” project, RCREEE in cooperation with MEDENER are organizing a National Consultation Mission on the Implementation of Appliances Scrapping in Lebanon.

the national consultation mission for appliances scrapping will be organized in cooperation with LCEC to have more information about the scrapping and recycling industry in Lebanon, and to identify the potential of collection, recycling and marketing the materials from scrapped appliances. The mission also will focus on the types of appliances collected, and the existing programs that may support such market.

## **About meetMED II**

The Mitigation Enabling Energy Transition in the Mediterranean region (meetMED) project is an EU-funded project, developed by the Mediterranean Association of the National Agencies for Energy Management (MEDENER) and the Regional Centre for Renewable Energy and Energy Efficiency (RCREEE). MeetMED II activities aim at strengthening the implementation of EE measures and improving countries’ energy mix focusing on building and appliances’ sectors through a multiscale, multi-partner and inclusive approach at local and regional levels, thereby fostering regional cooperation.
