Mitigation Enabling Energy Transition in the MEDiterranean region

# A315 Tools for local authorities

Agathe Lacombe, meetMED II Project Manager

22 April 2024  
Hammamet, Tunisia

RCREEE

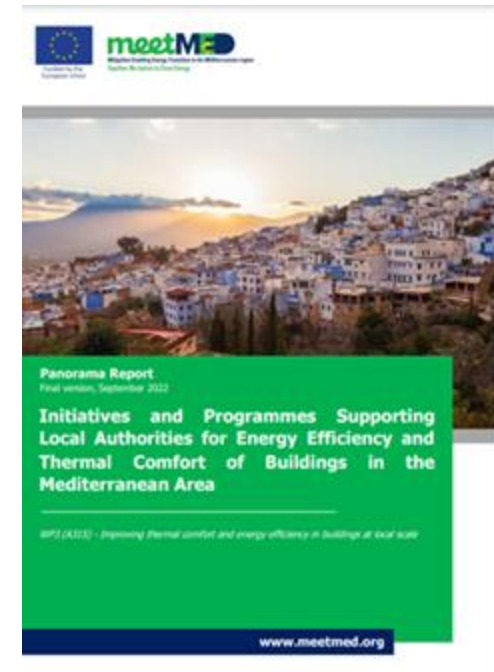

Regional Center for Renewable Energy and Energy Efficiency  
المركز الإقليمي للطاقة المتجددة وكفاءة الطاقة

# Objectives

- Providing tools and methodologies to agencies to allow them to better support municipalities in implementing EE actions
- Tools such as: audits, guidance on construction & renovation, including passive solutions, urban heat management, one-stop-shops to spread good practices in the private housing sector, capacity-building, etc.
- Some tools & methodologies are already experimented in countries: Tunisia, Algeria, Morocco, Lebanon have success stories to share and replicate in other countries
- Notably in terms of collaborative schemes between national agencies and local authorities.

- Publications on “**Initiatives & programmes supporting local authorities for EE in public buildings**”,
- Events: REDEC session on “**Solar schools**” (July 2023)
- Webinars & capacity-building: “**Energy & Climate Info Centers**” (Dec.2023), “**Cooling cities & buildings**” (Jan 2024), “**Planning & financing energy performant public buildings**” (March 2024), “**City Labelling**” (TBD)  
With corresponding **Factsheets** publications.
- “**Countries roadmap to support local authorities in implementing EE measures**” & **Project sheets**

## Projects per country & next steps

### • Elaboration of roadmaps for each country

- MOR – updating MEA label for cities
- TUN – follow-up on ACTE program
- DZ - launching of a study on needs
- JOR - launching of a study on passive measures
- LEB – guidebook on EE in buildings released
- PS – Reactivate a national green building labelling
- EG – finalization of district cooling report

**Coming next:** City networking in Algeria (TBD), City network in Lebanon (May 2024), National WS on DC in Egypt (TBD), publication of the Fact Sheets (Eng & FR)

Capacity building	City network	Awareness raising	Local regulation enforcement	City labelling	Building labelling
<ul style="list-style-type: none"> <li>• <b>MOR</b> - Structurer une offre de service nationale d'accompagnement de l'AMEE pour les communes désireuses de s'engager en faveur de la maîtrise de l'énergie.</li> <li>• <b>JOR</b> - Adaptation of the <u>PrioritéEE</u> toolkit to the Jordanian context and experimentation at the scale of 3 pilot cities / project identification. Audits &amp; simulation of passive measures.</li> </ul>	<ul style="list-style-type: none"> <li>• <b>TN</b> - Renforcer le réseau de villes <u>ReV'ACTE</u> dans ses missions de capitalisation et dissémination d'initiatives pilotes, le transfert de compétences et l'échange d'expériences et d'outils entre dirigeants locaux.</li> </ul>	<ul style="list-style-type: none"> <li>• <b>LB</b> - Accès au financement et renforcement des capacités de sensibilisation, mobilisation et appui en matière de maîtrise de l'énergie. / Outillage des unités environnementales sur la sensibilisation</li> <li>• <b>EG</b> – District cooling as an opportunity for local authorities for cooling their buildings</li> </ul>	<ul style="list-style-type: none"> <li>• <b>TN</b> - Renforcer l'application effective de la RT pour les bâtiments neufs par la formation des professionnels au niveau local.</li> <li>• <b>PS</b> - Develop and experiment a system of incentives and obligations at the local level to foster the construction of EE buildings complying with the national ambitions.</li> </ul>	<ul style="list-style-type: none"> <li>• <b>DZ</b> - Guider les communes algériennes vers l'amélioration continue de la gestion de l'énergie de leur patrimoine tout en reconnaissant les efforts des communes les plus engagées.</li> </ul>	<ul style="list-style-type: none"> <li>• <b>PS</b> - Update and reactivate a national green building label adapted to the Palestinian context and support pilot cities to adopt it for their new buildings.</li> </ul>
