

Mitigation Enabling Energy Transition in the MEDiterranean region – Phase II

# WP 3 - Promote Energy Efficiency in buildings

Marie-Pierre Meillan, International Project Officer, ADEME

**Launching meetMED II – Regional cooperation for an energy efficient future**  
Online workshop - April 7, 2021

# Expected impacts and challenges

*Barometer platform  
for buildings*

*Study on the  
potential of District  
Cooling*

*Bankable pilot  
projects*

Better understanding of the  
drivers of energy consumption  
in buildings

7 demo-actions

## WP3 Promote Energy Efficiency in buildings

Targeted Countries : Algeria, Egypt, Jordan, Lebanon, Libya, Morocco, Palestine, Tunisia

Knowledge sharing and  
capacity building

Development of tools and  
methodologies

*Regional platform for  
training and provisional  
certification  
"Grassmed"*

*Design standardized  
energy services  
(energy performance  
contracts)*

*A set of tools for  
energy management  
in schools*

*Solutions for improving  
water-energy nexus for  
buildings*

*A set of tools for energy  
management by local  
authorities*

## Expected impacts and challenges

**Stakeholders engagement :**  
national EE agencies, local  
governments, ESCOs,  
financial institutions,  
potential clients...

**Ability to mobilize  
external partners and  
find synergies with  
existing projects in the  
Region**

**Collaboration with WP 6  
and other WP for  
dissemination**

**Dissemination of tools,  
guidelines and  
trainings**

**7 DEMO actions**  
**5 partners**  
**8 implementing  
countries**  
**3 online tools**  
**2 publications**

# Global Overview

## Demo-actions

Barometer  
platform for  
buildings  
(ADENE)

Regional platform for  
training and self-  
certification of building  
“Grassmed”  
(ADEME)

Simplified tool for  
schools audit and  
measures of  
renovation  
(ENEA)

Standardized  
energy services  
with energy  
performance  
contracts  
(CRES)

Solutions for  
improving water-  
energy nexus for  
buildings  
(ADENE)

Improve energy efficiency  
and thermal comfort in  
public buildings managed  
by local authorities  
“COOL BUILDINGS”  
initiative  
(ADEME)

“Study on the potential of  
District Cooling in the South  
Mediterranean countries”

RCREEE

“Solutions for Energy  
Efficiency in public buildings  
: from audit to action”

ADEME

## Capacity building

Dissemination of tools and guidelines  
(AMEE/ADEME)

Twinning Agreements and implement  
study tours for cities’ officers  
(ADENE)

Development and test new training  
modules physically and virtually  
through webinars for professionals  
(AMEE/ADEME)

**Thank you for your attention**
