

PEEB Perspectives

Helen Naser (Advisor, PEEB/GIZ)

**Launching meetMED II – Regional
cooperation for an energy efficient future**
Online workshop - April 7, 2021

Funded by the
European Union

PEEB in a few words

From projects to sector transformation: the PEEB approach

Financing

- **Push ambition** of building code
- **Proof of concept** through individual projects
- **Market stimulation** through basic financial instruments (grants, loans)

Policy

- **Improve** building code
- **Roll-out of concept** for national incentive programmes
- **Leveraging** commercial financing

Goal: Reaching market maturity for broad sector transformation

Implementing agencies

PEEB Results

FINANCE

- Financing pipeline: **EUR 1.9 billion** (in initial 5 PEEB countries around 400 Mio)
- Financing appraised for **15 projects**, feasibility studies ongoing for **6 projects**
- Preparation of **2 national financing programs**
- Support for two **private-sector projects**

POLICY

- **Awareness-raising** at **17 international meetings** and co-organising **regional workshops** for Asia and North Africa in cooperation with the GlobalABC
- **2 national programmes** for energy efficiency in buildings are being developed.
- Upgrading of **3 building regulations**
- Public and private sector **national alliances for green construction** established
- Over **600 people** trained in 5 countries

Possible synergies with meetMED II

- **Regulation:**
Complementing experiences
- **Access to finance:**
Experiences from national incentive programs and projects
- **Alliance building:**
Sector stakeholder rallying
- **Knowledge sharing:**
